

Opportunities Still Exist

Healthcare stocks may keep your portfolio from needing a checkup - CNN "Forget about an apple (or Apple) a day. Healthcare stocks may help keep the investing doctor away."

Our customers have been alerted in time.

The STOXX Europe 600 Index is down nearly **-16.51%** Over the last 6 months, but over the same period, the top 25% group of performing stocks posted an average gain of **+13%**.

With the right tools, you can also take advantage of performance dispersion and identify the big movers in the early phase of a new trend.

Trendrating model issued an upgrade (rating **A** or **B**) on most of the Health Care sector stocks cited in the above article.

Table

Charts

The data and tools you decide to use, will impact your performance.

Explore leading edge solutions that have a measurable impact. Our proprietary trend discovery model provides a rating metric to discriminate bull vs. bear trend and act as an extra layer of intelligence to promptly spot trend reversals across stocks and indices with a high level of accuracy.

Bull trends are identified by positive rating (A and B). Bear phases by negative ratings (C and D). We provide a unique edge where A and B rated stocks tend to outperform those rated C and D on average.

The Darwinian evolution toward innovative data and technology is gaining momentum.
