

The Reversal of Crypto ETFs

In the **Cryptocurrency ETF** asset class, Trendrating’s AI-driven model issued a trend downgrade (**C** and **D** = bear trend), well before any conventional research or traditional methodology detected the shift. Today, over 300 global institutions leverage our technology and advanced analytics to gain better information about what drives returns, price trends.

The decline in Bitcoin's value is also reflected in **Strategy Inc.**'s recent situation. The company's market cap has now fallen billions below the value of its Bitcoin holdings, (Source: Yahoo Finance).

This sharp drop illustrates how quickly market sentiment can turn and how fast huge losses are produced. A best-in-class methodology to detect trend reversals in time should part of any sound and wise investment process.

The efficiency of Trendrating model is well documented across the years.

-45.66% since negatively rated **C** by Trendrating on October 13, 2025.
