

## Updates on The Reversal of Crypto ETFs

In the **cryptocurrency ETF** asset class, Trendrating's AI-driven model issued a trend downgrade (**C** and **D** ratings, indicating a bear trend) well before conventional research or traditional methodologies detected the shift. Today, over 300 global institutions leverage our technology and advanced analytics to gain deeper insights into the factors driving returns and price trends. **We shared this report on December 1st, and it has now been updated, confirming Trendrating's accuracy.**

Moreover, **Coinbase Global’s** equity performance has weakened alongside lower trading activity, while **Strategy’s** valuation has declined in line with the repricing of its Bitcoin exposure (Source: Yahoo Finance).

This decline illustrates how quickly market sentiment can turn and how rapidly losses can materialize not only in asset exposure, but across the infrastructure that supports the digital asset ecosystem. **A best-in-class methodology to detect trend reversals in time should be part of any sound and disciplined investment process.**

**The efficiency of Trendrating model is well documented across the years.**

**Coinbase: -34%** since negatively rated **C** by Trendrating on November 14, 2025.

**Strategy: -56%** since negatively rated **C** by Trendrating on October 13, 2025.
