

How Trendrating Helped Investors Avoid Double-Digit Losses in Software Stocks

Trendrating has once again demonstrated its value to more than 300 institutional clients by delivering timely, actionable insights across U.S. software sector stocks. Its advanced trend analysis helps investors respond quickly to market shifts, protect assets, and reduce potential losses. By accurately identifying buyer versus seller pressure and issuing negative **C** and **D** ratings ahead of downturns, Trendrating has enabled clients to avoid double-digit losses in key stocks and navigate volatile markets with greater confidence. With reliable and transparent signals, Trendrating remains an essential tool for investors seeking to stay in control during turbulent times.

Risk Management Examples: Software Stocks

Important Information: The evaluations, rankings and information provided by Trendrating (the "Services") are provided solely for the use of finance professionals (the "Users") who, by nature of their status as investment professionals understand, or are expected to understand, the complexity of finance products, the functioning of the markets and the risks inherent in them. The Services are not offered for use by persons not employed or actively working as professionals in the finance and investment industry. The Services are to be used entirely at the risk of the Users. Included in the Services are forward-looking statements that are based on observations, assumptions and calculations that reflect Trendrating's expectations. Forward-looking statements are subject to numerous risks and uncertainties that could cause actual results to materially differ from those expectations. The Services are not intended to constitute a recommendation of any specific security or financial product and are to be implemented solely in conjunction with or as part of a complete investment evaluation conducted by the Users. Under no circumstances shall Trendrating, its officers, directors, employees or agents be liable for any damages, lost profits or investment losses that result in any way from use of the Services or any interruptions, errors or delays in the Services.
